### CHOLERA.

#### THE DISEASE UNCHECKED AT NASHVILLE.

Twenty-five Deaths in the Past Twenty Four Hours.

#### Fifteen from the Cholera.

Special to the Chronicle.

NASHVILLE, June 14—6:40 P. M.  
The total number of deaths to-day were twenty-five, of which fourteen were from cholera, or as now termed by our physicians the bilious diarrhea and congestion. It is said that the disease is abating and yields more readily to treatment, but the reports of interments hardly sustain the assertion.  
The weather for the past two days has been quite cool and favorable for the decline of the disease.  
We had a drenching rain this morning.

### GREENEVILLE.

#### NO CAUSE FOR ALARM.

Frightful Stories Not to be Believed.

Special to the Chronicle.

GREENEVILLE, June 14, 10:40 P. M.  
There is no reason for alarm as to the health of Greeneville. Sanitary measures have been adopted and are being carried out. Many are more scared than hurt. There is considerable dysentery and cholera morbus. It may be a mild type of cholera. A Mrs. Arwood died yesterday. Mrs. Maggie Mitchell died at 2 o'clock A. M., near Rheathorn, where she had gone on Thursday to attend the funeral of her father, Mr. Piper.  
There are no new cases to-day. Terrible stories are afloat, but you need not believe them.  
Court has adjourned.

### NEW YORK.

#### Miscellaneous.

NEW YORK, June 14.—Gov. Dix signed the State supply bill to-day.  
Several horses died this week of distemper near Hempstead, Long Island.  
President Grant and family returned to Long Branch this morning.  
The publishers of an indecent paper called *The Echo*, in Newark, were fined one hundred dollars to-day.  
A grain elevator and thirty thousand bushels of wheat were burned at Cresco, Iowa, yesterday.  
Two-thirds of Maxwell, Ontario, was burned to-day. Loss heavy.

#### Yellow Fever.

A waiter on the steamer Yazoo, running from New Orleans to Savannah and Philadelphia, arrived here by rail from the latter city, and died in the hospital from unmistakable yellow fever.

NEW YORK, June 14.—Governor Dix has signed the New York cotton press bill.

NEW YORK, June 14.—Gen. Sherman and a conversation with a reporter last evening, and is made to say of Gen. Davis, concerning his indictments of Capt. Jack and the preparations for hanging him and some of his associates, "If the statement is correct, there is no doubt that Gen. Davis must have exceeded his duty, and he would have been held responsible for his acts. He should be guided by military rule and the law. We all know they are murderers. The President himself says they are murderers, and had Gen. Davis shot them while they were being pursued, I do not think he would have exceeded his duty. He did not do this, and could not afterwards shoot them in cold blood."

"Gen. Davis' report to Gen. Schofield, Gen. Sherman said, 'may differ from that published in the papers. Davis is too experienced an officer to do anything that would bring odium upon the army or lay himself open to military court martial for exceeding his duty as an officer.'"

The General thinks there will be no difficulty about disposing of the Modocs under arrest. Those found guilty of murder will be hanged or shot, and if it is proved that there was an agreement for a general uprising among the tribes, others will receive the same punishment, as a warning to Indians. He remarked, however, that it was a pity the guilty Modocs were not shot at first, then all the commission business and expense would have been avoided.

As to the killing already of a few prisoners, General Sherman says those who committed the deed are low blackguards and murderers, and had nothing whatever to do with the army.

A Boston letter says that the new secret anti-liquor legislation party has rapidly extended lodges all over Massachusetts. There are nineteen branches and nine thousand active members in Boston alone, controlling fifty thousand votes through the State.

"What is Democracy, and who are Democrats?" is the appalling conundrum propounded by the Louisville *Ledger*. The definitions are as multiform as the letters required to spell the word. Sometimes "Democracy" means "eternal hostility to the Constitutional Amendments." Sometimes it means anything calculated to boost a party patriot into an office. In fact, it can be made to mean whatever the managers elect. In this latitude its meaning depends wholly upon the end sought. If it be policy to fraternize with the Republicans on a Republican platform, THAT is "Democracy." If it be policy to cry "d—n the nigger," then THAT is Democracy. But, to tell the plain truth, "Democracy," as a party organization, is dead, and the party bearers, who have been carrying the corpse about the country for ten years, ought to bury it.—*Memphis Avalanche*, 12th.

## HOME NEWS.

### Death of a Journalist.

ST. LOUIS, June 14.—The steamboat Mary McDonald was burned in the Missouri river.

Major Henry Ewing, of the *Times*, is dead.

Samuel H. Richardson & Co., commission merchants, have failed.

HENDERSON, Ky., June 14.—An insane man, attending a circus, killed a child and injured a number of persons with a club. He was arrested after receiving three shots from the police.

### Hanged.

PARIS, Ky., June 14.—A negro was hanged here to-day for the killing of another negro in 1872. The rope was too long in the first attempt, but the second proved successful.

### Still They Come.

SAN FRANCISCO, June 14.—The steamships Alasen and Cyphreus have arrived, with over two thousand Chinese on board. The mail matter from China comments severely upon the persecution of the Chinese in San Francisco.

The Japanese Ministers of Finance have resigned, and published a letter setting forth the debt of the Empire at \$104,000,000. They say the people are excessively taxed, and that the debt is increasing yearly, in consequence of the new schemes of the government.

It is possible that the ministers may receive orders to commit harikari.

The palace of Miedo is to be rebuilt according to European plans.

An ancient christian church has been discovered in the interior of Japan.

The resigning ministers say that Japan seems to be going ahead, but is actually lagging behind, and that a national financial collapse may happen at any moment. They say they clearly see a calamity for the future.

SAN FRANCISCO, June 14.—Photographs have been taken of Capt. Jack and the whole of his band of warriors.

General Davis has sent a party of men to hunt for and arrest the persons guilty of the massacre of the Modoc prisoners.

### The Fifth Time.

INDIANAPOLIS, June 14.—The Supreme Court has again granted Mrs. Clem, who has twice been convicted of the murder of Mr. and Mrs. Young, a new trial. This will be the fifth time.

Boston, June 14.—The Master Car Builder's Convention last night elected the following officers for the ensuing year and dissolved: President J. H. Vanhau-ton, Pittsburg; Vice-President, V. D. Per-ham, Hartford; Secretary, Alexander Gar-ris, Morrisana, N. Y.; Treasurer, A. Starn-back, Reading, Pa.

### Terrible Tragedy.

NASSAU, June 14.—At Henderson, N. H., Henry Jewett, twenty-five years of age, has been endeavoring to force his suit with Miss Ella Wood, daughter of Charles Wood. Miss Wood rejected his offer of marriage and her parents also opposed it. This morning Jewett visited Miss Wood, and pulled from his pocket a six shooter and aimed it at her head and fired, the ball entered her forehead just above the eye and lodged under the skin. Miss Wood fell upon the floor, but not insensible, and it is hoped the wound is not mortal. Jewett then passed from the house to the yard, where he met Mr. Wood and endeavored to assassinate him, when Mr. Wood caught the enraged man by the throat and warded off the aim of the pistol, and so fortunately escaped. Jewett then put his pistol to his own ear and discharged it, the ball entering his head and causing a wound that must prove fatal. The indications are that it was Jewett's intention to murder the entire family.

### Caterpillars.

MEMPHIS, June 14.—Caterpillars have again appeared in an adjacent county. They are destroying the cotton. They are worse in North Mississippi than ever before, owing to incessant rains. Grass and weeds are also damaging the cotton crop.

ST. LOUIS, June 14.—John F. Cook, the English Vice Consul, is here in custody for alleged embezzlement of \$1,800 from Thomas Graham.

### Big Swindle.

PHILADELPHIA, June 14.—A raised certificate of the Pennsylvania Railroad Company, from one share to one hundred, was discovered this morning, having been sold by J. H. Hasten at Jay Cooke's Bank in this city several weeks since. The said certificate was sent to Jay Cooke & Co. by a confidential source, who suspected it had been raised and wished the matter investigated.

### FOREIGN.

#### Spain and Cuba.

MADRID, June 14.—Pi y Morgall, President of the Council, in the course of a speech delivered last evening in the Cortes, said the government must first pacify the peninsula in order to discourage disaffection in Cuba.

At a demonstration in Barcelona yesterday, the speaker who addressed the assembly termed the Municipality of the city thieves, and urged vigorous measures for getting rid of the objectionable authorities. The meeting broke up with cries of "Viva la federacion social" and "Down with the Municipality."

ROME, June 14.—The Pope has completely recovered from his late indisposition.

#### The Viennese Disappointed.

LONDON, June 14.—A Vienna dispatch says that the number of visitors at the exhibition is far less than was anticipated. The tradespeople and inhabitants generally are greatly discouraged at the absence of strangers, and the prices of living, which have hitherto deterred persons from visiting the city, have been reduced.

#### A New French Political Alliance.

A special correspondent at Paris of the *London House*, in a dispatch to that paper, says an alliance has been effected between the supporters of ex-President Thiers and Radicals in the Assembly. Thiers is said to have had frequent conferences with Gambetta since his retirement from the Presidency of the Republic.

#### Queens and Emperors.

LONDON, June 14.—It is said that the ex-Queen Isabella is about to proceed to Rome for the purpose of conferring with the Pope upon the prospects of the Bourbon Family in Spain.

A dispatch from Berlin says that Emperor William continues in a very weak condition, and that he requires absolute quiet in order to effect the restoration of his health.

Resolutions confirming the terms of amalgamation of the Anglo-American, French, New York, New Foundland and London Cable companies, were unanimously passed by the shareholders of the French and Anglo-American companies yesterday.

John Camden Halten, a well known publisher and bookseller in this city, died to-day.

MADRID, June 14.—During the session of the Cortes last night, it was announced from the Ministerial benches that the separation of the church and State is part of the programme of the Government.

Nicholas Salmeron has been elected President of the Cortes. He received 176 votes against 74 for Senor Figueras.

The Minister of Finance has submitted a proposition to the Cortes for the negotiation of a loan of 30,000,000 reals and the imposition of a new tax.

## WASHINGTON.

### A Heavy cotton claim.

WASHINGTON, June 14.—Sumner's health is restored.

The Junata sails next week in search of the Polar.

In the United States Circuit Court of Boston yesterday, the case of Gazoway B. Lamar, of New York, against Albert G. Browne and others was commenced.

The plaintiff claims that in January 1869, the defendants seized 1800 bales of cotton of the value of \$513,000 in Georgia, and that the same was illegally taken and although the defendants have often been requested to return the same, they have refused to do so the defendants in answer claim that they seized the cotton, as special Treasury Agents of the Government, and as such disposed of it and paid the proceeds into the hands of the Government and are therefore not responsible.

WASHINGTON, D. C., June 14.—Gen Sherman regrets that the Modocs were allowed to surrender, but disapproves Davice policy of hanging them without some legal form.

### Mexican Affairs.

Messrs. Atkinson and Williams, special Indian Commissioners to Mexico, arrived last night, accompanied by Senor Mantine, Mexican Commissioner, and Chiquano Kanka, head chief of the Kickapoos. They report the Indian tribes in Mexico willing to go on a reservation in the United States, provided their women and children, captured by General McKenzie, now in imprisonment, are returned to them in Mexico. The Mexican authorities have agreed to fulfil the promise, should they endeavor to not comply after the return of the captives. All intelligent Mexicans think it will be the best way to rid the frontier of these Indians.

Messrs. Atkinson and Williams had several conferences with the most influential chiefs of the Kickapoos, Lepans and Miscaileys, resulting as above given. They visited Governor Cespeda, of Cahuilla, who received them kindly and appointed a commissioner to co-operate with them in effecting the removal of the Indians. They also visited Governor Gaudiez, of Nueva Leon, who warmly co-operated with them. All Texas frontiersmen heartily co-operate in ridding Texas of this band of robbers by an early removal. The military authorities are willing to accede to the request, as the Mexican authorities hold themselves responsible for the return of the prisoners, should the tribes not comply.

### EAST TENNESSEE NOTES.

#### Bradley County.

W. W. Wood & Co., are driving a big business with their Pump manufactory at this place. They can make at once or establish 150 pumps per week, and still they can not fill all the orders they receive.—*Cleveland Banner*.

#### James County.

IRON FURNACE.—The people of Oolte-wah and James county are forming a stock company with the view of erecting an Iron Furnace near the residence of Mr. Nathan Hinch's inexhaustible iron beds, in the lower part of this county. Some thirty thousand dollars worth of stock has been already subscribed, and no doubts are entertained but that the remaining twenty thousand will be subscribed in a very short time. The enterprise displayed by our friends in James county, in this matter, is truly commendable, and we hope they will meet with an abundant success.—*Cleveland Banner*.

#### Rhea County.

Deputy United States Marshal, W. C. Burnett, attempted the arrest of three men who were trafficking in whisky, in Stock-ton Valley on the 9th inst. Several shots were fired, but with what success it is not known. Only two of the party have been heard of since. It is supposed that the other is killed, but his body has not yet been found. A wagon and two horses, together with about fifteen gallons of whisky were taken and have been sent to Knoxville.—*Loudon Journal*.

#### Rhea County.

Rhea, though not as large in territory and population, is richer in coal and iron than any county in East Tennessee. These interests have already attracted the attention of capitalists to a considerable extent, and should the Cincinnati Southern come down the Tennessee Valley, of which we have little doubt, they will at once be developed and made available, thus opening up sources of prosperity that will be felt in all directions.

Wheat beyond the river, as on this side, is not first rate, and will yield but little over a half crop. Corn looks well, and oats promises an abundant yield.

The court house, which was unroofed by a storm and otherwise injured a few weeks ago, has been re-covered and repaired, and looks almost as good as new. The county jail, however, is a dilapidated affair, but a people as law-abiding and as prosperous as those of Rhea have very little use for an institution of the kind.—*Athens Post*.

#### Washington County.

We learn that the young men of Washington and adjoining counties are to have a grand tournament at our fair grounds on the 4th of July. All are invited to attend.

Owing to the continuous rains, we hear some of our farmers complaining of the appearance of rust on their wheat. We trust, however, that their fears are groundless, and that it will turn out all right.

Philip Harmon, one day this week, caught a cat fish in Chucky river weighing over sixty-five pounds. This is what is termed, in ordinary parlance, "some fish."

SPLENDID COAL.—We are informed that the company who have been making excavations in search of coal near Johnson City, in this county, were rewarded a few days ago by striking a rich vein of the finest coal, which burns brilliantly. We hope the report is correct, and that the valuable deposit may be speedily developed. Our county abounds in rich minerals of almost every variety, and now, if coal is added, we may expect a new era to begin in our prosperity.—*Jonesboro' Flag*.

WHEAT.—We have made inquiry of our farmers from every neighborhood in the county as to the prospect of the present wheat crop, and from the information we have received there will not be more than one-half as much wheat raised this year as last. The severe winter froze out a great deal of the wheat, especially where the ground is loose, and the blue grass has almost entirely killed out the wheat of many fields. Where the land was properly prepared and drilled the crop will be a paying one, but where the farmer was careless and took no pains to prepare his grounds there will be almost an entire failure.—*Herald and Tribune*.

### CONJUGALITIES.

"Wilt thou take this brown-stone front, These carriages—this diamond, To be the husband of thy choice, Fast locked in bonds of Hymen?" And wilt thou leave thy home and friends To be his loving wife? And help to spend his large income So long as thou has life?"

"I will!" the modest maid replies, The love-light beaming in her eyes. And wilt thou take this water-fall, This ostentatious pride, And all these unpaid millioners' bills, To be thy chosen bride?"

"And wilt thou love and cherish her Whilst thou has life and health; But die as soon as possible, And leave her all thy wealth?"

"I will!" the fearless swain replies, And eager waits the nuptial ties. "Then I pronounce you man and wife; And whom I've joined forever, The next best man may disunite, And the first divorce court sever."

### REST.

When winds are raging o'er the upper ocean, And billows wild contend with angry roar, 'Tis said, far down beneath the wild commotion, That peaceful stillness reigns ever more. So to the heart that knows thy love, O Purest! There is a temple, sacred ever more, And all the babble of life's angry voices Dies in hushed stillness at its peaceful door.—*Mrs. H. B. Store*.
